Hematrex™ is specially formulated to promote normal venous circulatory health by increasing vein permeability, wall strength, and elasticity. This promotes normal blood flow and helps keep blood moving through sensitive areas where vein constriction and blood pooling can cause daily, even constant discomfort.

Get Hematrex™ and STOP the suffering now! When veins become constricted by excessive pressure from sitting too long or by stress, [constipation](#), or [diarrhea](#), they can cause considerable discomfort. Although a common occurrence, constricted veins can be an uncomfortable topic to talk about - it is downright uncomfortable to live with. Constricted veins in the anal area might be accompanied by itching, pain, burning, and even bleeding if the vein walls become so weakened by pooling blood they break open, thus exposing you to infection. Often veins in this area of the body become constricted due to poor venous circulatory health. When vein walls become strained or weakened by physical stress, blood can pool at the weak spots, thereby reducing healthy blood flow. As blood pools, it adds pressure to and further weakens the vein walls. This can result in a cycle that can produce serious discomfort. Both the excessive straining associated with constipation and the explosive movements of diarrhea put tremendous pressure on the vein walls in the anus area. Other factors that can lead to poor venous circulation include body weight, improper lifting, and prolonged periods of sitting or standing. Strengthening the vein walls is crucial to maintaining proper and healthy venous circulation. This is where specially formulated all natural Hematrex™ comes in to promote normal venous circulatory health. It's Estimated At Least 1 in 3 individuals have or will, at some point in their life, experience weakened vein walls and abnormal venous circulation!!! Could you become one of them? **Top 10 Reasons We Recommend Hematrex™:** Contains Organically Certified and Wildcrafted Highly Effective Herbal Ingredients Promotes Venous Circulatory Health In A 100% All-Natural Way Developed by [Dr. Edward F. Group III](#), a world-renowned organic nutraceutical formulator Product Quality and Satisfaction is 100% Guaranteed or your money back Global Healing Center Organics' product line is free of all excipients, binders, fillers, toxic preservatives, and other impurities We utilize 100% pure vegetable capsules, as opposed to medicinal tablets with liver-toxic glues and binders, or gelatin capsules with animal-source contaminants and toxic preservatives Our products do not contain questionable or hard-to-digest non-nutritive substances such as magnesium stearate (a toxic, hydrogenated oil), silicon dioxide (common sand), methylcellulose, or carnauba wax Hematrex™ helps normalize the permeability of veins and capillaries, provides nutrients to optimize vein health, and contains flavinoids to improve capillary and blood vessel elasticity and strength Promotes blood flow by strengthening the walls of veins The first and only circulatory product developed using organically certified herbs **Telltale signs your environment is at risk for poor, unhealthy venous circulation!** Swollen and painful veins around the anus Discharge of bright red blood on toilet paper after wiping You regularly sit or stand for long periods of time during the day Violent coughing or sneezing Straining while having a bowel movement Not having at least 2 bowel movements each day Practicing an unhealthy diet and consuming little fiber Lack of exercise Lifting heavy objects Obesity Liver damage from alcohol consumption or other toxic substances Food allergies The herbs in Hematrex™ along with proper diet and exercise, can help promote normal, healthy circulation in your body. **Hematrex™ is a**

combination of 9 powerful herbs and the special solvent MSM. It's designed to aid the body in reducing swollen and painful veins caused by weakened vessel walls and pooling blood. This powerful formula combines ancient knowledge and modern science in one amazing formula!

So how does Hematrex™ work? Let's consider the benefits of the individual ingredients in Hematrex™! **Wildcrafted Collinsonia Root:** Wildcrafted means we cultivate the herb from the wild and it's free from chemical pesticides and insecticides. Linda Clark's *Handbook of Natural Remedies for Common Ailments* states, Collinsonia's benefits come from its ability to support blood vessel contraction and flow, help reduce rectal irritation, improve digestion, calm the inflammation of rectal veins, and keep the mucus membrane healthy. These activities help strengthen vein walls and reduce blood pooling. **Japanese Pagoda Tree Extract:** This amazing herbal remedy has been used successfully for hundreds of years and is one of the most successful substances on the planet for keeping blood flowing through the veins. Our Kosher Certified Japanese Pagoda Tree works by normalizing the permeability of the veins and capillaries and by providing nutrients to optimize vein health. **Organic Horse Chestnut Seed:** This herb is commonly used by alternative health practitioners around the world specifically to aid the body in achieving optimum circulation through the venous system. We use only the finest sources to ensure the potency and quality of aescin, the widely sought after ingredient in horse chestnut. **Organic Butcher's Broom:** Used for decades as a trusted herb for strengthening the walls of capillaries, Butcher's broom received its name from butchers who used the herb to clean their cutting boards. This herb contains high levels of flavanoids that strengthen the capillary walls and support a health circulatory system. Butcher's Broom improves the elasticity of stretched and inflamed blood vessels, thereby restoring strength to the vessel walls and reducing blood pooling. **Organic Red Grape Vine Leaves:** Red grape vine leaves are also very high in flavanoids, which are critical for improving circulation through the veins. **Kosher Lajjal:** This Ayurvedic plant possesses unique qualities. If touched, its leaves will fold closed and won't reopen until they're released. **Organic Witch Hazel Leaf:** Witch Hazel is a small tree that blooms in the fall. It has become widely used in the cosmetics industry as a topical astringent that may help reduce the signs of inflammation as well. **Organic Oregano Powder Concentrate:** Oregano was added to aid in reducing temporary inflammation. Oregano has been shown to support proper digestion. **Kosher Certified Bupleurum:** This herb is used frequently in Chinese medicine as a cooling herb and has been used for over 2000 years to promote circulatory health and strengthen the walls of veins. **Opti-MSM™:** Methylsulfonylmethane is a great product for promoting general cardiovascular health. It helps transport vital nutrients and strengthens the cardiovascular system. MSM is a nutritional supplement supplying a nutrient form of biologically active sulfur to various systems of the body. It is especially supportive of tissues high in protein, such as red blood cells, muscle tissue, skin, and hair. It promotes the strengthening of muscles in vein walls and helps promote circulatory health as well. It supports normal and regular operations of muscle tissue, which in turn encourages smooth blood flow through the venous system. Improved blood flow further enhances the body's natural healing processes. Hematrex™ is Backed By A 100% Money Back Guarantee! Hematrex™ is the herbal powder in a capsule that can help you feel great again inside and out! Satisfied customers have used Hematrex™ and continue to give it rave reviews. Isn't it time you tried it? Isn't it time, once and for all, to reduce your discomfort? Try Hematrex™ 100% risk free. You have nothing to loose except discomfort caused by weakened vein walls!
